

WRAP INSTALLATION AUTHORIZATION & LIABILITY WAIVER

Paint / Surface Condition | Disassembly & Reassembly | Customer Authorization

1. CUSTOMER & VEHICLE INFORMATION

Customer Name: _____ **Phone:** _____

Year / Make / Model: _____ **Mileage:** _____

VIN / Plate: _____ **Date:** _____

Requested Film / Color: _____ **Estimate #:** _____

2. AUTHORIZED WRAP SCOPE

☐ Full Color Change ☐ Tuxedo / Two-Tone ☐ Chrome Delete ☐ Accent / Partial ☐ Removal

Other / Specific Scope: _____

3. PAINT & SURFACE CONDITION DISCLOSURE

Vinyl performs best over sound, properly bonded OEM-quality paint. Installation or future removal may reveal or affect pre-existing or compromised surfaces.

- ☐ Factory/OEM paint appears sound
- ☐ Repainted panel(s) known/suspected
- ☐ Previous collision/body repair
- ☐ Clear coat failure / peeling / flaking
- ☐ Rock chips / deep scratches
- ☐ Body filler / prior bodywork
- ☐ Existing vinyl / PPF / adhesive
- ☐ Aftermarket-painted components

Panels / Conditions of Concern: _____

4. DISASSEMBLY / REASSEMBLY AUTHORIZATION

I authorize ACES Detail to remove and reinstall exterior components reasonably necessary to complete the approved wrap, including handles, mirrors, emblems, lighting, moldings, trim, spoilers, roof rails, grilles, liners, and similar components. Aged, brittle, previously damaged, improperly installed, aftermarket, or one-time-use clips and fasteners may fail during normal removal or reassembly. Replacement parts beyond normal installation consumables may be additional with customer approval.

6. CAMERAS, SENSORS & ELECTRONIC SYSTEMS

Removal or movement of trim, mirrors, bumpers, cameras, sensors, or related components may affect systems that require calibration. ADAS, camera, sensor, or electronic calibration is not included unless specifically listed on the estimate. ACES Detail will notify the customer if a calibration concern is identified.

5. PAINT / SURFACE RISK ACKNOWLEDGMENT

I understand that vinyl may lift, expose, or damage non-OEM, previously repaired, poorly bonded, deteriorated, or otherwise compromised paint, clear coat, bodywork, filler, decals, or refinshed surfaces during installation or future removal. ACES Detail will use reasonable professional care, but cannot assume responsibility for failure of a pre-existing or compromised surface.

7. EXISTING VINYL / REMOVAL (IF APPLICABLE)

- ☐ No existing vinyl
- ☐ Partial removal required
- ☐ Full removal required
- ☐ Adhesive cleanup expected

Removal time and paint response cannot always be predicted. Brittle, aged, sun-baked, improperly installed, or unknown vinyl may require additional labor. Removal and adhesive cleanup are billed according to the approved estimate or authorized additional labor.

8. CUSTOMER DISCLOSURE

- ☐ I disclosed all known repainting, body repair, paint damage, loose trim, and aftermarket components.
- ☐ To the best of my knowledge, there are no other known conditions affecting installation/removal.

Known issues / notes: _____

9. FINAL AUTHORIZATION

By signing below, I authorize ACES Detail to perform the approved vinyl wrap service and the reasonable disassembly/reassembly necessary to complete it. I confirm that I reviewed the vehicle-condition disclosures above, understand the inherent risks associated with wrapping and unwrapping vehicle surfaces, and had the opportunity to disclose known vehicle conditions before work begins.

Customer Signature: _____ **Date:** _____

Printed Name: _____ **ACES Representative:** _____
